PREFACE.

These tables have been prepared with the intention of facilitating the conversion of French into American currency.

The heavy figures represent Francs and the figures opposite are their equivalents in dollars and cents, as divided by the decimal point; the remaining five figures serve to express the equivalents, in dollars and cents, of multiples of 10, 100, 1,000, 10,000 or 100,000 of the Franc amounts. Decimals and multiples of the Franc amounts can be seen at a glance, as shown in the examples.

Taking the rate 5.10 and the Franc amounts 100 and 131, there may be found the following values :

@ 5.10 Fcs. 100.		@ 5.10 Fcs. 131.	
Fcs.	.10 = \$		
1.	.20	Fcs.	1.31 = \$.26
10.	1.96		13.10 2.57
100.	19.61		131. 25.69
1,000.	196.08		1,310. 256.86
10,000.	1,960.78		13,100. 2,568.63
100,000.	19,607.84		131,000. 25,686.27
1,000,000.	196,078.43		1,310,000. 256,862.75
10,000,000.	1,960,784.31		13,100,000. 2,568,627.45

Where a final 5 or 50 counts more than one-half in qualifying the preceding figure, a + sign has been added.

To convert Fcs. 1,293,472.84 into dollars and cents @ 5.25.

Fcs. 1,290,000.	\$245,714.286
3,470.	660.952
. 2.84	.541
<hr/>	<hr/>
Fcs. 1,293,472.84	\$246,375.78

To find the equivalent of \$2,918.57 at 5.25, look in the dollar column for the amount nearest to it, which is . . . \$2,914.286 Fcs. 15,300.

plus difference,	4.286	22.50
	<hr/>	<hr/>
	\$2,918.57	Fcs. 15,322.50

The original calculations were proved, and compared twice with the printer's copy. From the electrotpe impressions the calculations have been checked three times in different ways by competent persons, and are pronounced to be without error.

19²/₁₀ Cents per Franc.
